## WHAT IS AN ACCOUNTABILITY PARTNER?

It's someone to whom you've given permission to help you stand strong. It's someone you trust because they genuinely care for you. Because the allure of temptation is strongest when nobody is looking, an Accountability Partner helps defeat temptation's pull by looking over your shoulder when you're on the Internet. Entering into an accountability relationship with a trusted, caring friend is an essential element to maintaining moral purity.

## THE IMPORTANCE OF ACCOUNTABILITY

Accountability is an essential part of our lives. Parents hold their children accountable. Husbands and wives give account for their responsibilities to one another. Pastors, counselors, and clergy give account to those who oversee them. Being accountable provides safety and a sense of freedom from temptation. Covenant Eyes software produces Internet accountability.

**“So then let us pursue the things which make for peace and the building up of one another”**

**– Romans 14:19 (NASB).**

## INTEGRITY

Integrity – the real you.

Integrity is who you are and what you do when you are alone.

## WHAT PEOPLE ARE SAYING ABOUT THE COVENANT EYES ACCOUNTABILITY PRODUCT

*Just wanted to send a thank you to the team who makes Covenant Eyes possible. This program is a blessing from God. The temptation to view impure websites has been eliminated to a great degree and I have remained pure of pornography since installing this program. Thank you.*

Rob

*I have struggled with Internet pornography for years and felt like a failure to God and my wife. I have tried other software filters but just found ways to get around it. I have two accountability partners. (A chord of three strands is not easily broken.) Since your software has been installed I have had no problem with the temptation to look at pornography.*

Chris
